Harbor Technical College

Leave of Absence and Return Policy

Policy ID: HTC-REG-004

1. Purpose

This policy explains how students request a leave of absence and resume their studies.

2. Requesting a Leave

Students planning to take a leave must:

1. Sign in to the Student Portal.
2. Complete the Leave of Absence Request form.
3. State the reason and proposed leave dates.
4. Submit any supporting documents requested by the Registrar.
5. Wait for written confirmation of the decision.

Students should not assume that a leave has been approved until official confirmation is received.

3. Returning From Leave

Students intending to return must:

1. Contact the Registrar's Office at least 30 days before the intended return date.
2. Submit the Return From Leave form through the Student Portal.
3. Confirm that any outstanding registration requirements have been addressed.
4. Receive confirmation of their return status from the Registrar.

4. Academic Record

Approved leave does not automatically remove academic obligations that were outstanding before the leave. Students should contact the Registrar for guidance about their individual records.

5. Missed Return Deadline

Students who cannot meet the return deadline should contact the Registrar before the planned return date. A revised return date requires confirmation from the Registrar.

6. Contact

All leave and return requests are managed by the Registrar's Office.

This policy does not provide scholarship rules for Northridge University.
